

## IN THE ABSTRACT OF THE DISCLOSURE

Please amend the Abstract as follows:

Please amend the paragraph starting at page 64, line 1 and ending at line 14 as follows.

~~It is an object to provide an~~ An information processing system which can easily perform a printing process irrespective of a restriction of an output paper size which can be defined by the user, effectively adds a page frame, and can perform the printing process. To accomplish the above object, according to the invention, an information processing apparatus for executing the printing process has: an input ~~means~~ device for inputting an arbitrary first output paper size included in a predetermined second output paper size; and a layout device ~~means~~ for arranging a plurality of pages of the first output paper size to one page of the second output paper size.
